

**Day 13**

Soon you have feathers and claws on your toes.  
Oh, my, how fast a new baby chick grows!

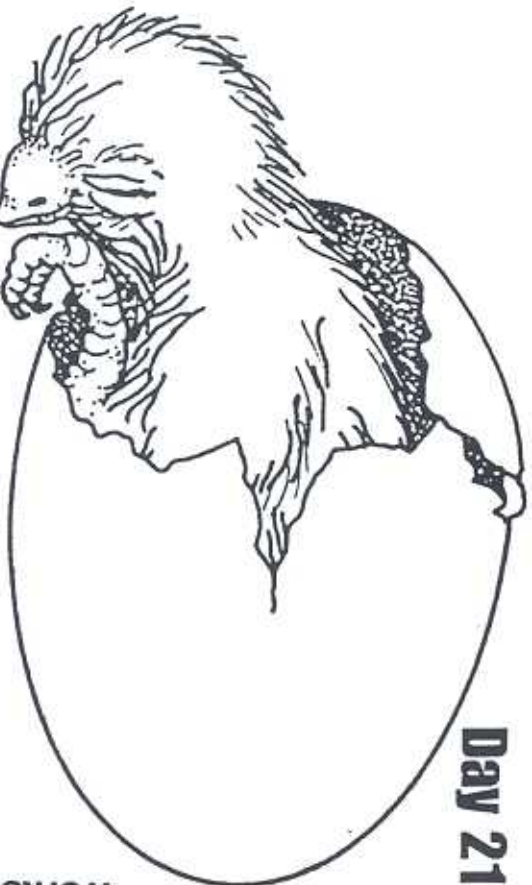

**Day 19**

This shell is too small. You're too big to fit.  
You're just about ready to hatch out of it.

**Day 16**

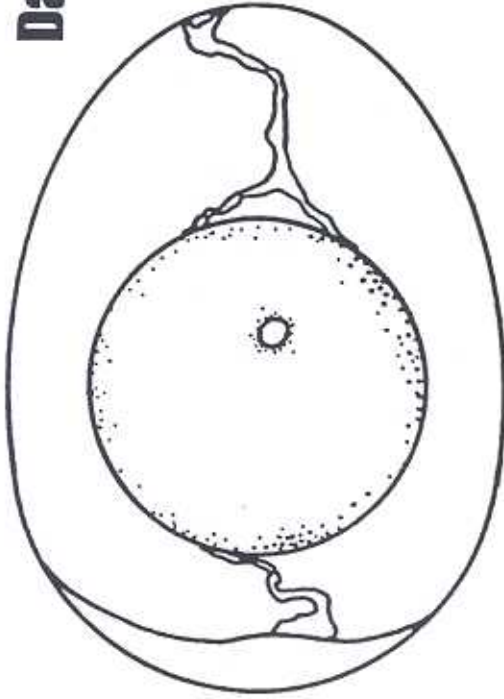

Bigger and bigger you grow every day.  
Your food's almost gone. Not long can you stay.

**Day 21**

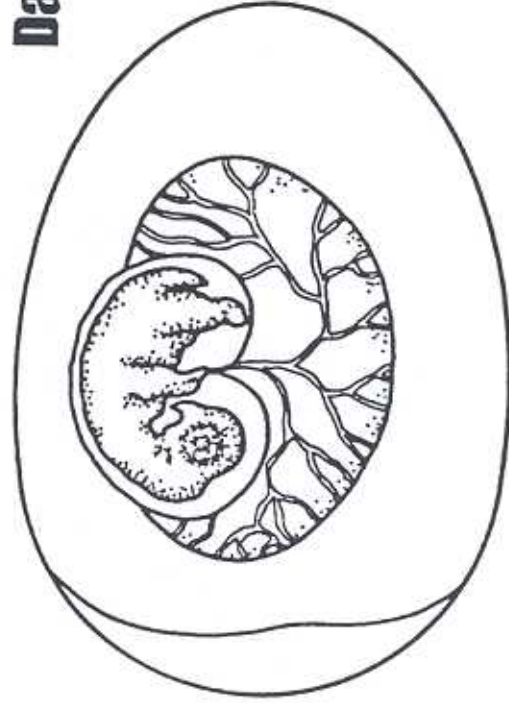

Peck for awhile, then take a short sleep.  
You work very hard and you're out. Peep! Peep!

**Day 1**

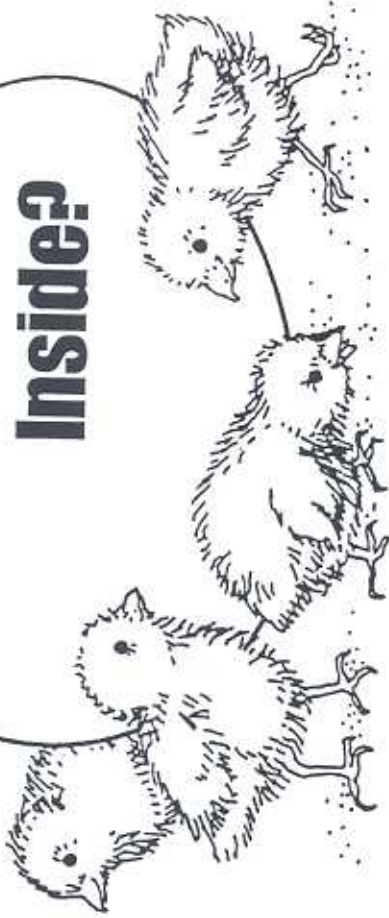

Baby Chick, baby chick, when will you hatch?  
Did you begin with this little white patch?

**Day 6**

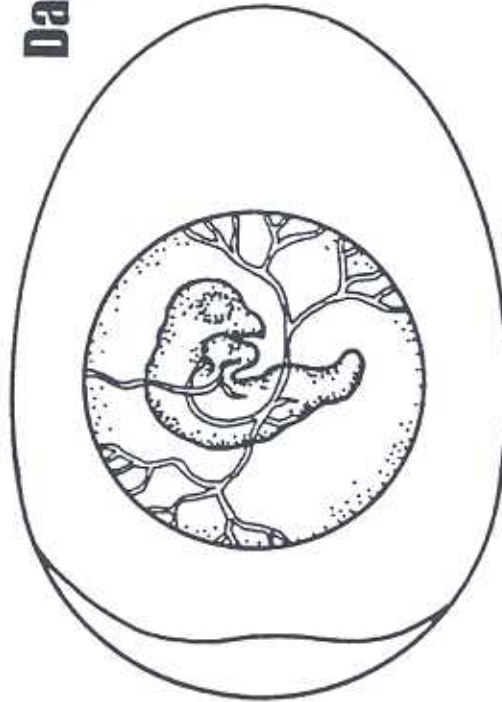

More days for growing, almost a week.  
You now have two wings, two legs and a beak.

# What's Inside?

What is inside of this little eggshell?  
A new baby chick! This story will tell.

**Day 3**

You're very tiny but warm as can be.  
Your heart and your head we begin to see.
