

Science Bound Participants Comments
For Program Improvement and Impact I
February 5, 2008

Completion of this evaluation is voluntary, but please help us to improve by sharing your ideas with us. Thank you.

What was the most important thing you learned in this session?

- Most other parents have the same ideas that I do.
- Financial assistance is available for students achieving 3.5+
- Children have high expectations for school just like we do as parents.
- That most parents are struggling with the same issues as are their children
- The kids assessments were very close to the parents!
- I enjoyed the interaction, discussion.

What do you plan to do differently as a result of today's program?

- Support my child more, even though she love saying (I got this)
- Encourage other parents to come to meetings
- Continue to support. work on teaching independence, money management.
- Network more with parents & teachers.
- Encourage, encourage, encourage

What future topics will interest you?

- What is happening in the schools where you can't just go to get a education?
Schools being more social than educational.
- Summer jobs that available for students, summer activities, camps.
- "Soft skills" needed to succeed in college. – Including time management, reviewing, note-taking, staying "afloat"
- College follow-up
